This action is predicated on the MIARAP impacts.

The impacted employees will be notified by separate letter of their involuntary reassignments. The final reassignment date would normally be no earlier than February 15, 2009. However, given the continuing loss of workload and the current financial condition of the Postal Service, it may be necessary to reassign some or all of the impacted carriers in advance of that date. Additionally, it may be necessary to detail some or all of the impacted carriers during the 60 day notice period in order to provide a work opportunity. If this becomes necessary, we will advise you.

By copy of this notice, the Pacific Area will withheld up to 107 full-time residual vacancies in the clerk, carrier, mail handler and custodial craft in offices and plants within a 500 mile radius of the impacted sites. Copies of the automated impact statements and the MIARAP impact calculation worksheet completed by operations. Seniority lists identifying the impacted carriers in each office are also attached.
